Made with *love*

Para cubrir todas las necesidades, hemos dividido nuestro catálogo en dos partes. Y aunque las dos comparten el mismo *Made with Love* cada una tiene su razón de ser:

To cover all needs, we have divided our catalogue into two parts. And although both share the same Made with *Love*, each has its own raison d'être:

Pour répondre à tous les besoins, nous avons divisé notre catalogue en deux parties. Et même si les deux partagent le même Made with *Love*, chacune a sa raison d'être:

Um alle Erfordernisse abzudecken, haben wir unseren Katalog in zwei Teile gegliedert. Und obwohl beiden Teilen dasselbe Made with *Love* gemein ist, hat jeder seine Daseinsberechtigung:

+ INFO

Innovación técnica y creatividad estética

Gravita nace en un formato base de 120x120 cm, del que se extraen con precisión el resto de formatos, permitiendo combinaciones infinitas y coherentes.

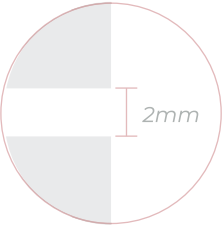

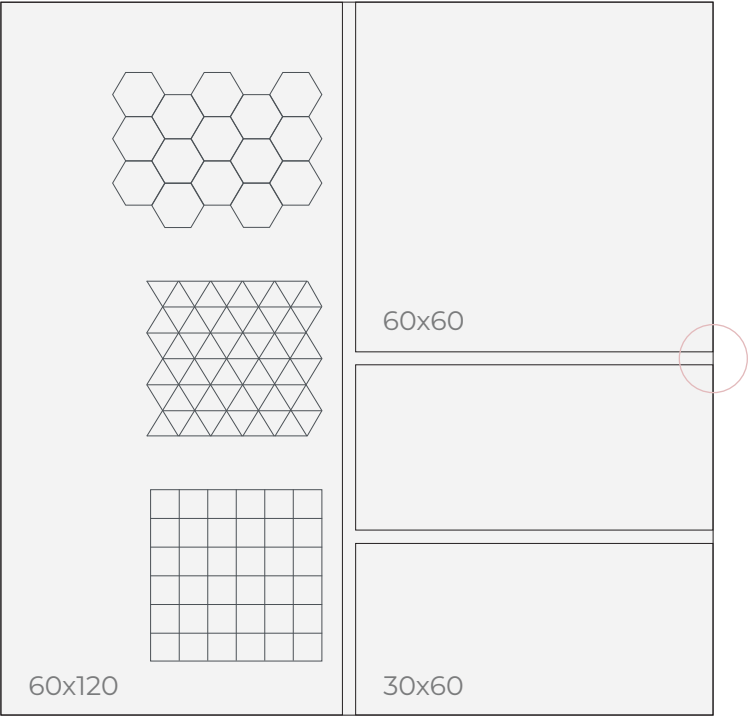

Su modularidad aporta una gran libertad creativa permitiendo al usuario mezclar formatos, jugar con ritmos visuales y generar composiciones únicas que se adaptan a cualquier espacio, garantizando continuidad y armonía en su aplicación.

Innovación técnica y creatividad estética se fusionan, convirtiéndose en una herramienta ideal para proyectos contemporáneos que buscan personalidad y orden visual al mismo tiempo.

Gravita is born in a base format of 120x120 cm, from which all other formats are precisely derived, allowing for infinite and coherent combinations.

Its modularity offers great creative freedom, enabling users to mix formats, play with visual rhythms, and create unique compositions that adapt to any space, ensuring continuity and harmony in application.

Technical innovation and aesthetic creativity merge, making it an ideal tool for contemporary projects that seek both personality and visual order.

Prissmacer da un paso más en la evolución tecnológica en la industria cerámica con Gravita, una innovadora familia de efectos digitales.

Gracias a la combinación de aplicaciones digitales avanzadas, Gravita ofrece una gama de acabados de altísimo valor, poniendo al servicio del diseño los efectos estructurantes y de alto volumen más avanzados

Prissmacer takes another step forward in the technological evolution of the ceramic industry with Gravita, an innovative family of digital effects.

Thanks to the combination of advanced digital applications, Gravita offers a range of highly valuable finishes, bringing to design the most sophisticated structuring and high-volume effects.

TE

Tinta estructurante / Structuring ink

Permite generar relieves mediante reacciones fisicoquímicas entre dicha tinta y un esmalte.
Enables the creation of reliefs through physicochemical reactions between the ink and a glaze.

CG

Cola digital y granilla aspirada / Digital Glue and Applied Grit

Una innovación que posibilita relieves de mayor volumen y con una perfecta integración con la gráfica.
An innovation that makes it possible to achieve higher-volume reliefs with perfect integration into the graphic design.

CM

Combinación mixta / Hybrid Combination

La verdadera fuerza de Gravita reside en la posibilidad de combinar ambas tecnologías para dar forma a superficies tridimensionales sofisticadas: relieves de distintos niveles, contrastes de luz y sombra y un atractivo juego visual que eleva cada creación
The true strength of Gravita lies in its ability to merge both technologies to shape sophisticated three-dimensional surfaces: multi-level reliefs, light and shadow contrasts, and an engaging visual play that elevates every creation.

Ventajas

01

Versatilidad de diseño / Design Versatility

Libertad para combinar relieves suaves y pronunciados en una misma pieza, con total personalización.
Freedom to combine both subtle and pronounced reliefs within a single piece, with full customization.

02

Eficiencia optimizada / Optimized Efficiency

Uso racional de materiales y procesos.
Rational Use of Materials and Processes.

03

Compatibilidad industrial / Industrial Compatibility

Fácil integración en líneas de producción estándar para una implantación ágil y eficaz.
Seamless integration into standard production lines for fast and efficient implementation.

Un nuevo estándar en calidad y valor estético

01

Texturas combinadas / Combined Textures

Potencian la riqueza visual.
Enhancing visual richness.

02

Efectos / Effects

Más realistas en piedras, maderas y otros materiales.
More realistic in stones, woods, and other materials.

03

Intensidad cromática máxima / Maximum color Intensity

Gracias a un relieve que no interfiere en el diseño superficial.
Thanks to a relief that does not interfere with the surface design.

Con **Gravita**, la tecnología cerámica se convierte en el mejor aliado del diseño, ofreciendo a la industria soluciones que inspiran, diferencian y crean valor.

With **Gravita**, ceramic technology becomes the ultimate ally of design, providing the industry with solutions that inspire, differentiate, and create value.

+ INFO

Prissmacer presenta su gama espesorada 20 mm como la respuesta técnica y estética para espacios exteriores exigentes. El mayor espesor incrementa notablemente la resistencia a flexión, a impactos y a cambios térmicos, ofreciendo durabilidad frente a heladas, abrasión y cargas puntuales, características clave en terrazas, jardines y suelos elevados.

Diseñado para combinar estética y funcionalidad, el porcelánico 20 mm permite formatos grandes y acabados antideslizantes, facilitando colocaciones sobre plots o pavimentos ventilados sin renunciar a la elegancia. Su instalación facilita la evacuación del agua, la inspección y el mantenimiento de las capas inferiores, mejorando el comportamiento hidrotérmico de la solución exterior.

Twenty MM es la solución de alto rendimiento para proyectos arquitectónicos exigentes, reforzando su idoneidad como material técnico y de diseño para exterior.

Elegir 20 mm es apostar por resistencia, seguridad y continuidad estética en el espacio exterior.

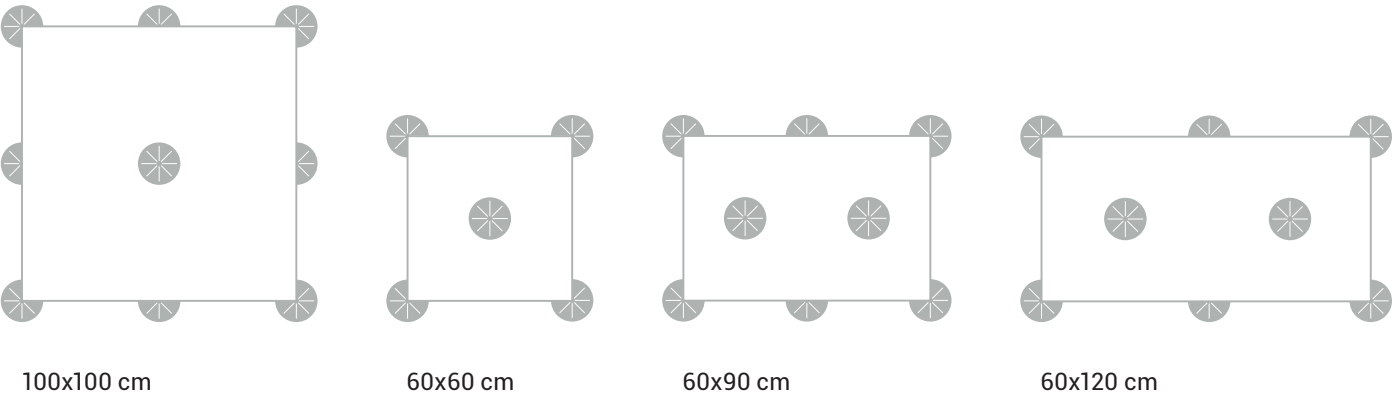

***Prissmacer** presents its 20 mm thick range as the technical and aesthetic solution for demanding outdoor spaces. The greater thickness significantly increases resistance to bending, impact and thermal changes, offering durability against frost, abrasion and point loads, key characteristics for terraces, gardens and raised floors.*

Designed to combine aesthetics and functionality, 20 mm porcelain tiles allow for large formats and non-slip finishes, facilitating installation on plots or ventilated pavements without compromising on elegance. Their installation facilitates water drainage, inspection and maintenance of the lower layers, improving the hydro-thermal performance of the outdoor solution.

***Twenty MM** is the high-performance solution for demanding architectural projects, reinforcing its suitability as a technical and design material for exteriors.*

Choosing 20 mm means opting for resistance, safety and aesthetic continuity in outdoor spaces.

RK **Rocker Brillo:** Tinta reactiva encajada con la gráfica qu reacciona expandiendo con el contacto de la cubierta final. Consigue un relieve suave casado con la gráfica.
Glossy Rocker: Reactive ink embedded in the graphic that reacts by expanding upon contact with the final cover. Achieves a smooth relief that blends with the graphic.

TE **Tinta estructurante:** Tinta reactiva que se aplica antes de la digital creando más relieve en la superficie.
Structuring Ink: Reactive ink applied before digital to create more relief on the surface.

Recomendaciones para la limpieza de decorados y piezas especiales

Debido a las características de los metales utilizados en la confección de estos productos, es suficiente utilizar una bayeta húmeda y jabón líquido neutro. En el caso de que la pieza llevara protección, no quitarla hasta que el producto esté colocado y limpio. No se atenderán reclamaciones una vez colocado el producto.

Recommendations for cleaning decorations and special pieces

Due to the characteristics of the metals used in the manufacture of these products, it is sufficient to use a damp cloth and neutral liquid soap. If the piece has protective packaging, do not remove it until the product is in place and clean. No claims will be accepted once the product has been installed.

Recommandations pour le nettoyage des décors et des pièces spéciales

En raison des caractéristiques des métaux utilisés dans la fabrication de ces produits, il suffit d'utiliser un chiffon humide et du savon liquide neutre. Si la pièce est protégée, ne la retirez pas avant que le produit soit installé et nettoyé. Aucune réclamation ne sera acceptée une fois le produit installé.

Empfehlungen für die Reinigung von Dekorationen und Spezialteilen

Aufgrund der Eigenschaften der für die Herstellung dieser Produkte verwendeten Metalle reicht es aus, ein feuchtes Tuch und neutrale Flüssigseife zu verwenden. Falls das Teil mit einer Schutzhülle versehen ist, entfernen Sie diese erst, wenn das Produkt angebracht und gereinigt ist. Nach dem Anbringen des Produkts werden keine Reklamationen mehr berücksichtigt.
